GUIDE FOR AUTHORS

Guide for Authors (Revised January 1999) 1
Authors' Statement and Copyright Release Form 4

ARTICLES

Recent Advances in Nutritional Science

β-Carotene, Carotenoids and the Prevention of Coronary Heart Disease. *Stephen B. Kritchevsky* 5
Nutritional Aspects of Calcium Absorption. *Felix Bronner and Danielle Pansu* 9

Biographical Article

Harold Martin Scott (1901–1991). *David H. Baker* 13

Biochemical and Molecular Roles of Nutrients

Hydrogenated Fat High in *Trans* Monoenes with an Adequate Level of Linoleic Acid Has no Effect on Prostaglandin Synthesis in Rats. *Mohamedain M. Mahfouz and Fred A. Kummerow* 15
Folate Deficiency Induces a Cell Cycle-Specific Apoptosis in HepG2 Cells. *Rwei-Fen S. Huang, Yun-Hsiu Ho, Huei-Li Lin, Jeng-Shu Wei and Tsan-Zon Liu* 25
Dietary Conjugated Linoleic Acid Influences the Immune Response of Young and Old C57BL/6NCrlBR Mice. *Michael G. Hayek, Sung Nim Han, Dayong Wu, Bruce A. Watkins, Mohsen Meydani, Jodee L. Dorsey, Donald E. Smith and Simin Nikbin Meydani* 32
Ingestion of Guar Gum Hydrolysate, a Soluble Fiber, Increases Calcium Absorption in Totally Gastrectomized Rats. *Hiroshi Hara, Takuya Suzuki, Takanori Kasai, Yoritaka Aoyama and Atsutane Ohta* 39
Oral Triacylglycerols Regulate Plasma Glucagon-Like Peptide-1(7–36) and Insulin Levels in Normal and Especially in Obese Rats. *Nobuko Iritani, Tomomi Sugimoto, Hitomi Fukuda, Masumi Komiya and Hitoshi Ikeda* 46
Transgenic Hypersecretion of des(1–3) Human Insulin-Like Growth Factor I in Mouse Milk Has Limited Effects on the Gastrointestinal Tract in Suckling Pups. *Douglas G. Burrin, Marta L. Fiorotto and Darryl L. Hadsell* 51
Inhibition of Glutamine Synthetase Decreases Proliferation of Cultured Rat Intestinal Epithelial Cells. *Vincent DeMarco, Kelly Dyess, Daniel Strauss, Christopher M. West and Josef Neu* 57
The Chemical Form of Selenium Influences 3,2′-Dimethyl-4-aminobiphenyl-DNA Adduct Formation in Rat Colon. *Cindy D. Davis, Yi Feng, David W. Hein and John W. Finley* 63
The Hypotensive Effect of Docosahexaenoic Acid Is Associated with the Enhanced Release of ATP from the Caudal Artery of Aged Rats. *Michio Hashimoto, Kazumasa Shinozuka, Shuji Gamoh, Yoko Tanabe, Md Shahdat Hossain, Young Mi Kwon, Noriaki Hata, Yoshihisa Misawa, Masaru Kunitomo and Sumio Masumura* 70
Bacteria Used for the Production of Yogurt Inactivate Carcinogens and Prevent DNA Damage in the Colon of Rats. *Ingrid Wollowski, Seung-Taek Ji, Alan T. Bakalinsky, Christian Neudecker and Beatrice L. Pool-Zobel* 77
Vitamin C Deficiency in Guinea Pigs Differentially Affects the Expression of Type IV Collagen, Laminin, and Elastin in Blood Vessels. *Fatemeh Mahmoodian and Beverly Peterkofsky* 83
Conjugated Linoleic Acid Inhibits Proliferation but Stimulates Lipid Filling of Murine 3T3-L1 Preadipocytes. *David L. Satory and Stephen B. Smith* 92
Reciprocal Regulation of HFE and Nramp2 Gene Expression by Iron in Human Intestinal Cells. *Okhee Han, James C. Fleet and Richard J. Wood* 98
Research Communication: A Carbohydrate-Rich Diet Stimulates Glucose-6-Phosphate Dehydrogenase Expression in Rat Hepatic Sinusoidal Endothelial Cells. *Zoltán Spolarics* 105
Research Communication: Vitamins C and E Prolong Time to Arterial Thrombosis in Rats. *Jason Mehta, Dayuan Li and Jawahar L. Mehta* 109

Human Nutrition and Metabolism

Short-Chain Fructo-Oligosaccharide Administration Dose-Dependently Increases Fecal Bifidobacteria in Healthy Humans. *Yoram Bouhnik, Kouroche Vahedi, Lotfi Achour, Alain Attar, Jérôme Salfati, Philippe Pochart, Philippe Marteau, Bernard Flourié, Francis Bornet and Jean-Claude Rambaud* 113
Iron Is Well Absorbed by Healthy Adults after Ingestion of Double-Fortified (Iron and Dextran-Coated Iodine) Table Salt and Urinary Iodine Excretion Is Unaffected. *Masoud Sattarzadeh and Stanley H. Zlotkin* 117
Taste Sensitivity Is Altered in Patients with Chronic Renal Failure Receiving Continuous Ambulatory Peritoneal Dialysis. *Robyn A. Middleton and Margaret A. Allman-Farinelli* 122

Nutrient Metabolism

Preparation of Chylomicrons and VLDL with Monoacid-Rich Triacylglycerol and Characterization of Kinetic Parameters in Lipoprotein Lipase-Mediated Hydrolysis in Chickens. *Kan Sato, Toshihiro Takahashi, Yuji Takahashi, Hiroki Shiono, Norio Katoh and Yukio Akiba* 126
Type of Milk Consumed Can Influence Plasma Concentrations of Fatty Acids and Minerals and Body Composition in Infant and Weanling Pigs. *Acie C. Murry, Jr., Seyoum Gelaye, John M. Casey, Timothy L. Foutz, Brou Kouakou and Deepa Arora* 132
Somatotropin Regulates Adipose Tissue Metabolism in Neonatal Swine. *Yanxin Wang, Susan K. Fried, Robert N. Petersen and Patricia A. Schoknecht* 139
Hepatic Fatty Acid Oxidation Enzyme Activities Are Stimulated in Rats Fed the Brown Seaweed, *Undaria pinnatifida* (Wakame). *Masakazu Murata, Kenji Ishihara and Hiroaki Saito* 146
Identification of an α_2-Macroglobulin Receptor in Human Mammary Epithelial Cells. *Donna Beshgetoor and Bo Lönnerdal* 152
Trehalose Can Be Used as a Parenteral Saccharide Source in Rabbits. *Seiji Sato, Keiichi Okamoto, Rie Minami, Hideaki Kohri and Shigeru Yamamoto* 158

Nutrient Requirements and Interactions

Calcium and Oxalic Acid Kinetics Differ in Rats. *Denise A. Hanes, Connie M. Weaver and Meryl E. Wastney* 165
Absorption of Calcium Oxalate Does Not Require Dissociation in Rats. *Denise A. Hanes, Connie M. Weaver, Robert P. Heaney and Meryl Wastney* 170
Single and Multiple Selenium-Zinc-Iodine Deficiencies Affect Rat Thyroid Metabolism and Ultrastructure. *Manuel Ruz, Juana Codoceo, Jose Galgani, Luis Muñoz, Nuri Gras, Santiago Muzzo, Laura Leiva and Cleofina Bosco* 174
^{59}Fe Is Retained from an Elemental ^{59}Iron Powder Supplement without Effects on ^{65}Zinc, ^{47}Calcium and ^{67}Copper in Young Pigs. *Kurt R. Zinn, Tandra R. Chaudhuri, James M. Mountz, Gerrit J. van den Berg, Dennis T. Gordon and Gary L. Johanning* 181
Calcium-Regulating Hormones, Bone Mineral Content, Breaking Load and Trabecular Remodeling Are Altered in Growing Pigs Fed Calcium-Deficient Diets. *E. Eklou-Kalonji, E. Zerath, C. Colin, C. Lacroix, X. Holy, I. Denis and A. Pointillart* 188
Aurothioglucose Inhibits Murine Thioredoxin Reductase Activity In Vivo. *Allen D. Smith, Catherine A. Guidry, Virginia C. Morris and Orville A. Levander* 194
Perinatal Brain Iron Deficiency Increases the Vulnerability of Rat Hippocampus to Hypoxic Ischemic Insult. *Raghavendra Rao, Marissa de Ungria, Daniel Sullivan, Peggy Wu, Jane D. Wobken, Charles A. Nelson and Michael K. Georgieff* 199

Nutritional Neurosciences

Fish Oil Supplementation Prevents Diabetes-Induced Nerve Conduction Velocity and Neuroanatomical Changes in Rats. *Alain Gerbi, Jean-Michel Maixent, Jean-Luc Ansaldi, Michele Pierlovisi, Thierry Coste, Jean-Francois Pelissier, Philippe Vague and Denis Raccah* 207

Nutritional Toxicology

Fumonisin B_1 Consumption by Rats Causes Reversible, Dose-Dependent Increases in Urinary Sphinganine and Sphingosine. *Elaine Wang, Ronald T. Riley, Filmore I. Meredith and Alfred H. Merrill, Jr.* 214

Announcements 221

No. 1S JANUARY 1999

CLINICAL TRIALS FOR THE TREATMENT OF SECONDARY WASTING AND CACHEXIA: SELECTION OF APPROPRIATE ENDPOINTS

ARTICLES

Foreword . . . iv
Introduction. *Daniel J. Raiten* . . . 223S
Keynote Address. *Janet Woodcock* . . . 225S
Muscle Protein Breakdown and the Critical Role of the Ubiquitin-Proteasome Pathway in Normal and Disease States. *Stewart H. Lecker, Vered Solomon, William E. Mitch and Alfred L. Goldberg* . . . 227S
Wasting in HIV Infection and AIDS. *Derek Macallan* . . . 238S
Wasting in Cancer. *Michael John Tisdale* . . . 243S
Pathophysiology of Protein-Energy Wasting in Chronic Renal Failure. *Joel D. Kopple* . . . 247S
Wasting in Chronic Gastrointestinal Diseases. *Rosemarie L. Fisher* . . . 252S
The Pathophysiology of Wasting in the Elderly. *Ronenn Roubenoff* . . . 256S
Special Considerations of Design of Trials with Elderly Subjects: Unexplained Weight Loss, Body Composition and Energy Expenditure. *Eric T. Poehlmann* . . . 260S
Special Considerations in the Design of Trials Involving Children. *Louis E. Underwood* . . . 264S
Body Composition: Overview. *Gilbert B. Forbes* . . . 270S
Nutritional and Metabolic Endpoints. *Morey W. Haymond* . . . 273S
Dimensions of "Functional Status" in Trials of Wasting. *Jay P. Shah* . . . 279S
The Impact of AIDS-Associated Wasting on Quality of Life: Qualitative Issues of Measurement and Evolution. *Marcia A. Testa and William R. Lenderking* . . . 282S
Dietary Treatment in Secondary Wasting and Cachexia. *Bruce R. Bistrian* . . . 290S
Perspective on Exercise and Wasting. *Elsworth R. Buskirk* . . . 295S
Approved Pharmacologic Interventions for Wasting. *Marianne Mann* . . . 303S
Working Group Session Report: Cancer . . . 306S
Working Group Session Report: Wasting in Geriatrics and Special Consideration in Design of Trials Involving the Elderly Subjects . . . 308S
Working Group Session Report: HIV/AIDS . . . 311S
Working Group Session Report: Chronic Renal and Gastrointestinal Disease . . . 313S
Working Group Session Report: Special Consideration in Trials Involving Children . . . 315S
Summary Remarks. *Henry G. Bone* . . . 317S
Appendix A: The Wasting Working Group . . . 319S
Appendix B: Proposed Entry Criteria for Wasting Trials . . . 320S
Workshop Attendees . . . 321S

No. 2 FEBRUARY 1999

ARTICLES

Recent Advances in Nutritional Science

Update on Interconversions of Vitamin B-6 with Its Coenzyme. *Donald B. McCormick and Haoyuan Chen* . . . 325

Biochemical and Molecular Action of Nutrients

Fish Oil Feeding Delays Influenza Virus Clearance and Impairs Production of Interferon-γ and Virus-Specific Immunoglobulin A in the Lungs of Mice. *Paul M. Byleveld, Gerald T. Pang, Robert L. Clancy and David C. K. Roberts* 328
Allyl-Containing Sulfides in Garlic Increase Uncoupling Protein Content in Brown Adipose Tissue, and Noradrenaline and Adrenaline Secretion in Rats. *Yuriko Oi, Teruo Kawada, Chiaki Shishido, Keiko Wada, Yutaka Kominato, Syoji Nishimura, Toyohiko Ariga and Kazuo Iwai* 336

Human Nutrition and Metabolism

Prior Protein Intake May Affect Phenylalanine Kinetics Measured in Healthy Adult Volunteers Consuming 1 g Protein · kg^{-1} · d^{-1}. *Jane M. Thorpe, Susan A. Roberts, Ronald O. Ball and Paul B. Pencharz* 343
The Food Matrix of Spinach Is a Limiting Factor in Determining the Bioavailability of β-Carotene and to a Lesser Extent of Lutein in Humans. *Jacqueline J. M. Castenmiller, Clive E. West, Jozef P. H. Linssen, Karin H. van het Hof and Alphons G. J. Voragen* 349

Community and International Nutrition

Maternal Vitamin A or β-Carotene Supplementation in Lactating Bangladeshi Women Benefits Mothers and Infants but Does Not Prevent Subclinical Deficiency. *Amy L. Rice, Rebecca J. Stoltzfus, Andres de Francisco, J. Chakraborty, Chris L. Kjolhede and M. A. Wahed* 356
Thiamine Deficiency is Prevalent in a Selected Group of Urban Indonesian Elderly People. *Jocelyn Andrade Juguan, Widjaja Lukito and Werner Schultink* 366

Nutrient Metabolism

Metallothionein-Null Mice Absorb Less Zn from an Egg-White Diet, but a Similar Amount from Solutions, although with Altered Intertissue Zn Distribution. *Peter Coyle, Jeffrey C. Philcox and Allan M. Rofe* 372
A Survey of Serum and Dietary Carotenoids in Captive Wild Animals. *Kerri A. Slifka, Phyllis E. Bowen, Maria Stacewicz-Sapuntzakis and Susan D. Crissey* 380
Accumulation of Astaxanthin all-*E*, 9*Z* and 13*Z* Geometrical Isomers and 3 and 3′ *RS* Optical Isomers in Rainbow Trout (*Oncorhynchus mykiss*) is Selective. *Marianne Østerlie, Bjørn Bjerkeng and Synnøve Liaaen-Jensen* 391
Daidzein and Genistein Glucuronides In Vitro Are Weakly Estrogenic and Activate Human Natural Killer Cells at Nutritionally Relevant Concentrations. *Yan Zhang, Tong T. Song, Joan E. Cunnick, Patricia A. Murphy and Suzanne Hendrich* 399
Research Communication: Energy Depletion Differently Affects Membrane Transport and Intracellular Metabolism of Riboflavin Taken up by Isolated Rat Enterocytes. *Giulia Gastaldi, Umberto Laforenza, Donatella Casirola, Giuseppina Ferrari, Marisa Tosco and Gianguido Rindi* 406

Nutrient Requirements

The Sodium Concentration of Enteral Diets Does Not Influence Absorption of Nutrients but Induces Intestinal Secretion of Water in Miniature Pigs. *Hansjörg Ehrlein, Benedikt Haas-Deppe and Eckhard Weber* 410
Sodium Requirement of Adult Cats for Maintenance Based on Plasma Aldosterone Concentration. *Shiguang Yu and James G. Morris* 419

Nutritional Neurosciences

Lysine Deficiency Alters Diet Selection without Depressing Food Intake in Rats. *Brian J. Hrupka, Yumei Lin, Dorothy W. Gietzen and Quinton R. Rogers* 424
High-Linoleate and High-α-Linolenate Diets Affect Learning Ability and Natural Behavior in SAMR1 Mice. *Makiko Umezawa, Kumiko Kogishi, Hiromasa Tojo, Shizue Yoshimura, Naoyuki Seriu, Akira Ohta, Toshio Takeda and Masanori Hosokawa* 431

Nutritional Epidemiology

Carotenoid Intakes, Assessed by Dietary Questionnaire, Are Associated with Plasma Carotenoid Concentrations in an Elderly Population. *Katherine L. Tucker, Honglei Chen, Silke Vogel, Peter W. F. Wilson, Ernst J. Schaefer and Carol J. Lammi-Keefe* 438

LETTER TO THE EDITOR

The Long History of Essential Fatty Acids but Belated Knowledge about Linoleate Deficiency per se: A Paradox. *S. C. Cunnane* . . . 446

ERRATUM

Confirmation of the Role of Rapidly Fermentable Carbohydrates in the Expression of Swine Dysentery in Pigs after Experimental Infection. *J. R. Pluske, Z. Durmic, D. W. Pethick, B. P. Mullan and D. J. Hampson* . . . 447

Announcements . . . 448

No. 2S FEBRUARY 1999

ASNS 1998 Symposium Proceedings

SYMPOSIA

Symposium: Assembly and Physiology of Apolipoprotein B-Containing Lipoproteins: Not Just for Heart Disease Anymore!

Introduction. *Rosemary L. Walzem and Robert L. Hamilton* . . . 449S
Insights into Apolipoprotein B Biology from Transgenic and Gene-Targeted Mice. *Murielle M. Véniant, Edward Kim, Sally McCormick, Jan Borén, Lars Bo Nielsen, Martin Raabe and Stephen G. Young* . . . 451S
Apolipoprotein B in the Rough Endoplasmic Reticulum: Translation, Translocation and the Initiation of Lipoprotein Assembly. *Gregory S. Shelness, Michael F. Ingram, Xue F. Huang and Jeanine A. DeLozier* . . . 456S
Assembly of Very Low Density Lipoprotein: A Two-Step Process of Apolipoprotein B Core Lipidation. *Sabina Rustaeus, Karin Lindberg, Pia Stillemark, Catharina Claesson, Lennart Asp, Thomas Larsson, Jan Borén and Sven-Olof Olofsson* . . . 463S
Estrogen Induction of VLDLy Assembly in Egg-Laying Hens. *Rosemary L. Walzem, Robert J. Hansen, David L. Williams and Robert L. Hamilton* . . . 467S
The LDL Receptor Gene Family, Apolipoprotein B and Cholesterol in Embryonic Development. *Joachim Herz and Robert V. Farese, Jr.* . . . 473S

Symposium: Nutrition, Biochemistry and Molecular Biology of Biotin

Introduction. *Donald M. Mock* . . . 476S
Molecular Biology of Biotin Attachment to Proteins. *Anne Chapman-Smith and John E. Cronan, Jr.* . . . 477S
Human Biotinidase Isn't Just for Recycling Biotin. *Jeanne Hymes and Barry Wolf* . . . 485S
Cellular Uptake of Biotin: Mechanisms and Regulation. *Hamid M. Said* . . . 490S
Advanced Analysis of Biotin Metabolites in Body Fluids Allows a More Accurate Measurement of Biotin Bioavailability and Metabolism in Humans. *Janos Zempleni and Donald M. Mock* . . . 494S
Biotin Status: Which Are Valid Indicators and How Do We Know? *Donald M. Mock* . . . 498S

Symposium: Advances in Measuring Food Insecurity and Hunger in the U.S.

Introduction. *Christine M. Olson* . . . 504S
Validation of Measures of Food Insecurity and Hunger. *Edward A. Frongillo, Jr.* . . . 506S

Measuring Food Insecurity and Hunger in the United States: Development of a National Benchmark Measure and Prevalence Estimates. *Steven J. Carlson, Margaret S. Andrews and Gary W. Bickel* 510S
Economic Determinants and Dietary Consequences of Food Insecurity in the United States. *Donald Rose* 517S
Nutrition and Health Outcomes Associated with Food Insecurity and Hunger. *Christine M. Olson* 521S
Food Insecurity: Consequences for the Household and Broader Social Implications. *Anne-Marie Hamelin, Jean-Pierre Habicht and Micheline Beaudry* 525S

Symposium: Causes and Etiology of Stunting

Introduction. *Edward A. Frongillo, Jr.* 529S
Separate and Joint Effects of Micronutrient Deficiencies on Linear Growth. *Jorge L. Rosado* 531S
Burden of Infection on Growth Failure. *Charles B. Stephensen* 534S
Predicting Longitudinal Growth Curves of Height and Weight Using Ecological Factors for Children with and without Early Growth Deficiency. *Maureen M. Black and Ambika Krishnakumar* 539S
Role of Intergenerational Effects on Linear Growth. *U. Ramakrishnan, R. Martorell, D. G. Schroeder and R. Flores* 544S

Symposium: Interactions of Diet and Nutrition with Genetic Susceptibility in Cancer

Overview. *Jo L. Freudenheim and Rashmi Sinha* 550S
The Role of Interindividual Variation in Human Carcinogenesis. *Cong Lai and Peter G. Shields* 552S
Diet, Genetic Susceptibility and Human Cancer Etiology. *Rashmi Sinha and Neil Caporaso* 556S
MTHFR Polymorphism, Methyl-Replete Diets and the Risk of Colorectal Carcinoma and Adenoma among U.S. Men and Women: An Example of Gene-Environment Interactions in Colorectal Tumorigenesis. *Jia Chen, Edward L. Giovannucci and David J. Hunter* 560S
Glutathione-S-transferase (GSTM1) Genetic Polymorphisms Do Not Affect Human Breast Cancer Risk, Regardless of Dietary Antioxidants. *Christine B. Ambrosone, Brian F. Coles, Jo L. Freudenheim and Peter G. Shields* 565S

Symposium: Steroid Hormone Receptor and Nutrient Interactions: Implications for Cancer Prevention

Introduction. *Martha A. Belury* 569S
Glucocorticoid Mediation of Dietary Energy Restriction Inhibition of Mouse Skin Carcinogenesis. *Diane F. Birt, Ann Yaktine and Ellen Duysen* 571S
Peroxisome Proliferator-Activated Receptors: A Critical Link among Fatty Acids, Gene Expression and Carcinogenesis. *John P. Vanden Heuvel* 575S
Transcriptional Targets of the Vitamin D_3 Receptor-Mediating Cell Cycle Arrest and Differentiation. *Leonard P. Freedman* 581S
Modulation of Estrogen Action in the Rat Pituitary and Mammary Glands by Dietary Energy Consumption. *Thomas J. Spady, Djuana M. E. Harvell, Athena Lemus-Wilson, Tracy E. Strecker, Karen L. Pennington, Eric A. Vander Woude, Diane F. Birt, Rodney D. McComb and James D. Shull* 587S

No. 3 MARCH 1999

ARTICLES

Biographical Article

Harold Henderson Williams (1907–1991). *William Sansalone* 591

Biochemical and Molecular Action of Nutrients

Transcriptional Regulation of Interleukin-2 Gene Expression Is Impaired by Copper Deficiency in Jurkat Human T Lymphocytes. *Robin G. Hopkins and Mark L. Failla* 596

Conjugated Linoleic Acid Inhibits Differentiation of Pre- and Post-Confluent 3T3-L1 Preadipocytes But Inhibits Cell Proliferation Only in Preconfluent Cells. *Ann E. Brodie, Viola A. Manning, Kathleen R. Ferguson, Dennis E. Jewell and Ching Yuan Hu* 602
Dietary Calcium Phosphate Stimulates Intestinal Lactobacilli and Decreases the Severity of a Salmonella Infection in Rats. *Ingeborg M. Bovee-Oudenhoven, Mischa L. Wissink, Jan T. Wouters and Roelof Van der Meer* 607
Weaning Anorexia May Contribute to Local Inflammation in the Piglet Small Intestine. *Barbara A. McCracken, Michael E. Spurlock, Mark A. Roos, Federico A. Zuckermann and H. Rex Gaskins* 613
Expression of T Lymphocyte $p56^{lck}$, a Zinc-Finger Signal Transduction Protein, Is Elevated By Dietary Zinc Deficiency and Diet Restriction in Mice. *Lynne M. Lepage, Jeri-Anne C. Giesbrecht and Carla G. Taylor* 620
Dietary Pectin Lowers Sphingomyelin Concentration in VLDL and Raises Hepatic Sphingomyelinase Activity in Rats. *Bellinda A. Bladergroen, Anton C. Beynen and Math J. H. Geelen* 628
The Isoflavone Genistein Inhibits Internalization of Enteric Bacteria by Cultured Caco-2 and HT-29 Enterocytes. *Carol L. Wells, Robert P. Jechorek, Karen M. Kinneberg, Steven M. Debol and Stanley L. Erlandsen* 634
Dietary Thiamin Level Influences Levels of Its Diphosphate Form and Thiamin-Dependent Enzymic Activities of Rat Liver. *Paul V. Blair, Rumi Kobayashi, Hardy M. Edwards, III, Neil F. Shay, David H. Baker and Robert A. Harris* 641
Inhibition of Glutathione Synthesis with Propargylglycine Enhances *N*-Acetylmethionine Protection and Methylation in Bromobenzene-Treated Syrian Hamsters. *Khingkan Lertratanangkoon, Joseph M. Scimeca and Jing-na Wei* 649
Heating Garlic Inhibits Its Ability to Suppress 7,12-Dimethylbenz(a)anthracene-Induced DNA Adduct Formation in Rat Mammary Tissue. *Kun Song and John A. Milner* 657
Research Communication: Dietary Nucleotide Supplementation Raises Erythrocyte 2,3-Diphosphoglycerate Concentration in Neonatal Rats. *F. Scopesi, C. M. Verkeste, D. Paola, D. Gazzolo, M. A. Pronzato, P. L. Bruschettini and U. M. Marinari* 662

Human Nutrition and Metabolism

Calcium Absorption and Kinetics Are Similar in 7- and 8-Year-Old Mexican-American and Caucasian Girls Despite Hormonal Differences. *Steven A. Abrams, Kenneth C. Copeland, Sheila K. Gunn, Janice E. Stuff, Lucinda L. Clarke and Kenneth J. Ellis* 666

Community and International Nutrition

Women's Dietary Intakes in the Context of Household Food Insecurity. *Valerie S. Tarasuk and George H. Beaton* 672
Caregiver Behaviors and Resources Influence Child Height-for-Age in Rural Chad. *France Bégin, Edward A. Frongillo, Jr. and Hélène Delisle* 680
Abbreviated Measures of Food Sufficiency Validly Estimate the Food Security Level of Poor Households: Measuring Household Food Security. *Paulina A. Lorenzana and Diva Sanjur* 687

Nutrient Metabolism

Chronic Protein Undernutrition and an Acute Inflammatory Stimulus Elicit Different Protein Kinetic Responses in Plasma but Not in Muscle of Piglets. *Farook Jahoor, Linda Wykes, Melanie Del Rosario, Margaret Frazer and Peter J. Reeds* 693
Alterations of Lipid and Cholesterol Metabolism in Cachectic Tumor-Bearing Rats Are Prevented by Insulin. *Paola Costelli, Luciana Tessitore, Barbara Batetta, M. Franca Mulas, Ornella Spano, Paolo Pani, Francesco M. Baccino and Sandra Dessì* 700

Nutrient Interactions and Toxicity

Calcium Does Not Inhibit Iron Absorption or Alter Iron Status in Infant Piglets Adapted to a High Calcium Diet. *Ine P. M. Wauben and Stephanie A. Atkinson* 707
Folate Nutriture Alters Choline Status of Women and Men Fed Low Choline Diets. *Robert A. Jacob, Donald J. Jenden, Margaret A. Allman-Farinelli and Marian E. Swendseid* 712

Nutrient Requirements

Research Communication: Dietary Pantothenic Acid Requirement of Juvenile Grass Shrimp, *Penaeus monodon*. *Shi-Yen Shiau and Chung-Wan Hsu* 718

Nutritional Methodology—Extracellular Water Volume

Human Extracellular Water Volume Can Be Measured Using the Stable Isotope $Na_2{}^{34}SO_4$. *Mazen J. Hamadeh, Line Robitaille, Daniel Boismenu, Pranithi Hongsprabhas, Orval A. Mamer and L. John Hoffer* 722

Nutritional Models

A Model of Whole-Body Protein Turnover Based on Leucine Kinetics in Rodents. *H. A. Johnson, R. L. Baldwin, J. France and C. C. Calvert* 728
Recycling, Channeling and Heterogeneous Protein Turnover Estimation Using a Model of Whole-Body Protein Turnover Based on Leucine Kinetics in Rodents. *H. A. Johnson, R. L. Baldwin, J. France and C. C. Calvert* 740

Issues and Opinions in Nutrition

Modified Food Guide Pyramid for People over Seventy Years of Age. *Robert M. Russell, Helen Rasmussen and Alice H. Lichtenstein* 751

Erratum 754

Announcements 755

SUPPLEMENT

Symposium on Phytochemicals: Biochemistry and Physiology

Introduction. *Clare M. Hasler and Jeffrey B. Blumberg* 756S
Dietary Isoflavones: Biological Effects and Relevance to Human Health. *Kenneth D. R. Setchell and Aedin Cassidy* 758S
Chemoprevention of Cancer by Isothiocyanates, Modifiers of Carcinogen Metabolism. *Stephen S. Hecht* 768S
Prevention and Therapy of Cancer by Dietary Monoterpenes. *Pamela L. Crowell* 775S

No. 4 APRIL 1999

ARTICLES

Recent Advances in Nutritional Science

Folate Metabolism and Requirements. *Lynn B. Bailey and Jesse F. Gregory, III* 779

History of Nutrition

Vitamin A as "Anti-Infective" Therapy, 1920–1940. *Richard D. Semba* 783

Biochemical and Molecular Action of Nutrients

Nitric Oxide Synthase Inhibitor Attenuates Intestinal Damage Induced by Zinc Deficiency in Rats. *Li Cui, Yoji Takagi, Masafumi Wasa, Kinya Sando, Jesmine Khan and Akira Okada* 792
Glucocorticoids Mediate the Enhanced Expression of Intestinal Type II Arginase and Argininosuccinate Lyase in Postweaning Pigs. *Nick E. Flynn, Cynthia J. Meininger, Katherine Kelly, Nancy H. Ing, Sidney M. Morris, Jr. and Guoyao Wu* 799
Apoptosis and Cell-Cycle Arrest in Human and Murine Tumor Cells Are Initiated by Isoprenoids. *Huanbiao Mo and Charles E. Elson* 804
Decreased Plasma Membrane Thiol Concentration Is Associated with Increased Osmotic Fragility of Erythrocytes in Zinc-Deficient Rats. *Jinming Xia, Jimmy D. Browning and Boyd L. O'Dell* 814
Postnatal Profiles of Glycogenolysis and Gluconeogenesis Are Modified in Rat Pups by Maternal Dietary Glucose Restriction. *Louise Lanoue, Xu-Jing Liu and Kristine G. Koski* 820
Growth Hormone Promotes Somatic and Skeletal Muscle Growth Recovery in Rats Following Chronic Protein-Energy Malnutrition. *Tracy A. Gautsch, Susan M. Kandl, Sharon M. Donovan and Donald K. Layman* 828

Malnutrition Modifies Pig Small Intestinal Inflammatory Responses to Rotavirus. *Ruurd T. Zijlstra, Barbara A. McCracken, Jack Odle, Sharon M. Donovan, Howard B. Gelberg, Bryon W. Petschow, Federico A. Zuckermann and H. Rex Gaskins* . . 838

Human Nutrition and Metabolism

Energy and Substrate Metabolism in Patients with Active Crohn's Disease. *Bruno Schneeweiss, Herbert Lochs, Christian Zauner, Margot Fischer, John Wyatt, Theresia Maier-Dobersberger and Barbara Schneider* 844
Plasma Lycopene Concentrations in Humans Are Determined by Lycopene Intake, Plasma Cholesterol Concentrations and Selected Demographic Factors. *Susan T. Mayne, Brenda Cartmel, Fabricio Silva, Chi S. Kim, Barbara G. Fallon, Kenneth Briskin, Tongzhang Zheng, Marianna Baum, Gail Shor-Posner and W. Jarrard Goodwin Jr.* 849
Demographic, Dietary and Lifestyle Factors Differentially Explain Variability in Serum Carotenoids and Fat-Soluble Vitamins: Baseline Results from the Sentinel Site of the Olestra Post-Marketing Surveillance Study. *Cheryl L. Rock, Mark D. Thornquist, Alan R. Kristal, Ruth E. Patterson, Dale A. Cooper, Marian L. Neuhouser, Dianne Neumark-Sztainer and Lawrence J. Cheskin* 855
The Retention and Distribution by Healthy Young Men of Stable Isotopes of Selenium Consumed as Selenite, Selenate or Hydroponically-Grown Broccoli Are Dependent on the Isotopic Form. *John W. Finley* 865

Community and International Nutrition

Giardia intestinalis Is Unlikely To Be a Major Cause of the Poor Growth of Rural Gambian Infants. *Peter G. Lunn, Hezekioh O. Erinoso, Christine A. Northrop-Clewes and Stephen A. Boyce* 872
Underreporting of Habitual Food Intake Is Explained by Undereating in Highly Motivated Lean Women. *Annelies H. C. Goris and Klaas R. Westerterp* 878
Nutrient Intake of Food Bank Users Is Related to Frequency of Food Bank Use, Household Size, Smoking, Education and Country of Birth. *Linda Jacobs Starkey, Katherine Gray-Donald and Harriet V. Kuhnlein* 883

Nutrient Metabolism

Net Postprandial Utilization of [^{15}N]-Labeled Milk Protein Nitrogen Is Influenced by Diet Composition in Humans. *Claire Gaudichon, Sylvain Mahé, Robert Benamouzig, Catherine Luengo, Hélène Fouillet, Sophie Daré, Marc Van Oycke, Françoise Ferrière, Jacques Rautureau and Daniel Tomé* 890
Increased Fecal Bile Acid Excretion and Changes in the Circulating Bile Acid Pool Are Involved in the Hypocholesterolemic and Gallstone-Preventive Actions of Psyllium in Hamsters. *Elke A. Trautwein, Angelika Kunath-Rau and Helmut F. Erbersdobler* 896

Nutrient Requirements

Ineffective Vitamin D Synthesis in Cats Is Reversed by an Inhibitor of 7-Dehydrocholestrol-Δ^7-Reductase. *James G. Morris* 903
Research Communication: Plasma 25-Hydroxyvitamin D in Growing Kittens Is Related to Dietary Intake of Cholecalciferol. *James G. Morris, Kay E. Earle and Phillip A. Anderson* 909
Research Communication: Availability of Food Folate in Humans. *Reinhild Prinz-Langenohl, Anja Brönstrup, Barbara Thorand, Monika Hages and Klaus Pietrzik* 913

Nutrient Requirements

Liquid Concentrates Are Lower in Bioavailable Tryptophan than Powdered Infant Formulas, and Tryptophan Supplementation of Formulas Increases Brain Tryptophan and Serotonin in Rats. *Ghulam Sarwar and Herbert G. Botting* 1692
Growing Kittens Require Less Dietary Calcium than Current Allowances. *James G. Morris and Kay E. Earle* 1698

Nutrient Interactions and Toxicity

Dietary Taurine Enhances Cholesterol Degradation and Reduces Serum and Liver Cholesterol Concentrations in Rats Fed a High-Cholesterol Diet. *Hidehiko Yokogoshi, Hideki Mochizuki, Ken Nanami, Yuko Hida, Fuyuko Miyachi and Hiroaki Oda* 1705
Changes in Women's Plasma Lipid and Lipoprotein Concentrations Due to Moderate Consumption of Alcohol Are Affected by Dietary Fat Level. *William V. Rumpler, Beverly A. Clevidence, Richard A. Muesing and Donna G. Rhodes* . . . 1713
Metabolism of Cholesterol Is Altered in the Liver of C3H Mice Fed Fats Enriched with Different C-18 Fatty Acids. *Sukhinder K. Cheema and Luis B. Agellon* 1718
Soy Protein Peptic Hydrolysate with Bound Phospholipids Decreases Micellar Solubility and Cholesterol Absorption in Rats and Caco-2 Cells. *Satoshi Nagaoka, Keiji Miwa, Michiko Eto, Yasuo Kuzuya, Goro Hori and Kazuhiro Yamamoto* . . . 1725
Chlorella Accelerates Dioxin Excretion in Rats. *Kunimasa Morita, Takahiko Matsueda, Takao Iida and Takashi Hasegawa* . . 1731

Nutritional Neurosciences

Galactose Consumption Induces Conditioned Flavor Avoidance in Rats. *Anthony Sclafani and Diana L. Williams* 1737
Essential Amino Acids Affect Interstitial Dopamine Metabolites in the Anterior Piriform Cortex of Rats. *Chen X. Wang, Lesa F. Erecius, J. Lee Beverly, III and Dorothy W. Gietzen* 1742

Proceedings of the Sixty-third Annual Meeting of the American Society for Nutritional Sciences 1746

Announcements 1759

No. 10 OCTOBER 1999

ARTICLES

Recent Advances in Nutritional Sciences

Cellular Import of Cobalamin (Vitamin B-12). *Bellur Seetharam, Santanu Bose and Ning Li* 1761
Recent Advances from Application of Doubly Labeled Water to Measurement of Human Energy Expenditure. *Dale A. Schoeller* 1765

Biographical Article

Ruth M. Leverton (1908–1982). *Jeffrey S Hampl and Marilynn I. Schnepf* 1769

Biochemical and Molecular Action of Nutrients

Neonatal Dietary Zinc Deficiency in Artificially Reared Rat Pups Retards Behavioral Development and Interacts with Essential Fatty Acid Deficiency to Alter Liver and Brain Fatty Acid Composition. *Ine P. M. Wauben, Hua-Cheng Xing and Patricia E. Wainwright* 1773
Chronic Marginal Vitamin A Status Affects the Distribution and Function of T Cells and Natural T Cells in Aging Lewis Rats. *Harry D. Dawson and A. Catharine Ross* 1782
Both (n-3) and (n-6) Fatty Acids Stimulate Wound Healing in the Rat Intestinal Epithelial Cell Line, IEC-6. *Derek J. Ruthig and Kelly A. Meckling-Gill*. 1791
Oral Administration of a Glutamine-Enriched Diet Before or After Endotoxin Challenge in Aged Rats Has Limited Effects. *Marie-Chantal Farges, Marie-Pierre Bérard, Francis Raul, Jean-Pierre Cézard, Bernard Joly, Paule Davot, Marie-Paule Vasson and Luc Cynober*. 1799
Addition of Arginine but Not Glycine to Lysine Plus Methionine-Enriched Diets Modulates Serum Cholesterol and Liver Phospholipids in Rabbits. *Isabelle Giroux, Elzbieta M. Kurowska, David J. Freeman and Kenneth K. Carroll*. 1807
Dietary Supplementation of Grape Polyphenols to Rats Ameliorates Chronic Ethanol-Induced Changes in Hepatic Morphology without Altering Changes in Hepatic Lipids. *Grace Y. Sun, Jinming Xia, Jianfeng Xu, Brian Allenbrand, Agnes Simonyi, P. Kevin Rudeen and Albert Y. Sun* 1814
Soy Induces Phase II Enzymes But Does Not Inhibit Dimethylbenz[a]anthracene-Induced Carcinogenesis in Female Rats. *Lisa C. Appelt and Marla M. Reicks* 1820
Dietary Compounds That Induce Cancer Preventive Phase 2 Enzymes Activate Apoptosis at Comparable Doses in HT29 Colon Carcinoma Cells. *Ward G. Kirlin, Jiyang Cai, Mary J. DeLong, Emma J. Patten and Dean P. Jones* 1827
Bovine Milk Antibodies against Cell Surface Protein Antigen PAc-Glucosyltransferase Fusion Protein Suppress Cell Adhesion and Alter Glucan Synthesis of *Streptococcus mutans*. *Takahiko Oho, Yoshihiro Shimazaki, Morihide Mitoma, Mamiko Yoshimura, Yoshihisa Yamashita, Kaoru Okano, Yutaka Nakano, Hiroko Kawagoe, Masataka Fukuyama, Noboru Fujihara and Toshihiko Koga* 1836
Research Communication: Calcium Reintroduction Decreases Viability of Cardiac Myocytes from Copper-Deficient Rats. *Joseph R. Prohaska and Lois J. Heller* 1842

Nutrient-Gene Expression

Retinoic Acid Induces *Gpx2* Gene Expression in MCF-7 Human Breast Cancer Cells. *Fong-Fong Chu, R. Steven Esworthy, Leslie Lee and Sharon Wilczynski* 1846
Plasma Apolipoprotein B-48, Hepatic Apolipoprotein B mRNA Editing and Apolipoprotein B mRNA Editing Catalytic Subunit-1 mRNA Levels Are Altered in Zinc-Deficient Rats. *Scott K. Reaves, Jessica C. Fanzo, John Y. J. Wu, Yi Ran Wang, Yan W. Wu, Lei Zhu and Kai Y. Lei* 1855

Human Nutrition and Metabolism

Research Communication: Consumption of Fish Oil Leads to Prompt Incorporation of Eicosapentaenoic Acid into Colonic Mucosa of Patients Prior to Surgery for Colorectal Cancer, But Has No Detectable Effect on Epithelial Cytokinetics. *Jennifer M. Gee, Mark Watson, Jennifer A. Matthew, Michael Rhodes, Christopher J. M. Speakman, William S. L. Stebbings and Ian T. Johnson* 1862

Nutrient Metabolism

Comparative Study of Glyeine, Alanine or Casein as Inert Nitrogen Sources in Endotoxemic Rats. *Chantal Chambon-Savanovitch, Catherine Felgines, Marie-Chantal Farges, Francis Raul, Jean-Pierre Cézard, Paule Davot, Marie-Paule Vasson and Luc A. Cynober* 1866
Luminal Amino Acids Acutely Decrease Intestinal Mucosal Protein Synthesis and Protease mRNA in Piglets. *Olasunkanmi A. J. Adegoke, Michael I. McBurney, Susan E. Samuels and Vickie E. Baracos* 1871
Serum Insulin-Like Growth Factor (IGF)-I Concentrations Are Reduced by Short-Term Dietary Restriction and Restored by Refeeding in Domestic Cats (*Felis catus*). *Amanda Maxwell, Richard Butterwick, Roger M. Batt and Cecilia Camacho-Hübner* 1879
Dietary Defatted Sesame Flour Decreases Susceptibility to Oxidative Stress in Hypercholesterolemic Rabbits. *Myung-Hwa Kang, Yoshichika Kawai, Michitaka Naito and Toshihiko Osawa*. 1885
Oral Administration of ^{14}C Labeled Gelatin Hydrolysate Leads to an Accumulation of Radioactivity in Cartilage of Mice (C57/BL). *Steffen Oesser, Milan Adam, Wilfried Babel and Jürgen Seifert*. 1891
Low Glucokinase Activity and High Rates of Gluconeogenesis Contribute to Hyperglycemia in Barn Owls (*Tyto alba*) after a Glucose Challenge. *Merrick R. Myers and Kirk C. Klasing* 1896

Research Communication: Adrenocorticotropic Hormone Increases Hydrolysis of B-6 Vitamers in Swine Adrenal Glands. *J. Dennis Mahuren, Paula L. Dubeski, Nigel J. Cook, Allan L. Schaefer and Stephen P. Coburn* 1905

Nutrient Requirements

Chloride Requirement of Kittens for Growth Is Less than Current Recommendations. *Shiguang Yu and James G. Morris* . . 1909

Nutritional Methodology

Statistical Procedures

Application of the Bootstrap Procedure Provides an Alternative to Standard Statistical Procedures in the Estimation of the Vitamin B-6 Requirement. *Christine M. Hansen, Marc A. Evans and Terry D. Shultz* 1915

Analysis of Nitrogen Balance Data

Statistical Analysis of Nitrogen Balance Data with Reference to the Lysine Requirement in Adults. *William M. Rand and Vernon R. Young* 1920

Issues and Opinions in Nutrition

Plasma Total Homocyst(e)ine May Not Be the Most Appropriate Index for Cardiovascular Disease Risk. *Elisa B. Stamm and Robert D. Reynolds* 1927

Announcements 1931

Erratum 1932

No. 11 NOVEMBER 1999

ARTICLES

Recent Advances in Nutritional Sciences

Ubiquitin–Dependent Signaling: The Role of Ubiquitination in the Response of Cells to Their Environment. *Keith D. Wilkinson* 1933

Biochemical and Molecular Action of Nutrients

Metabolic Differences between Genetically Lean or Fat Chickens Are Partly Attributed to the Alteration of the Insulin Signaling in Liver. *Joëlle Dupont, Jinwen Chen, Michel Derouet, Jean Simon, Bernard Leclercq and Mohammed Taouis* . . . 1937

Chronic Alcohol Consumption Induces Genomic but Not p53-Specific DNA Hypomethylation in Rat Colon. *Sang-Woon Choi, Felix Stickel, Hyun Wook Baik, Young-In Kim, Helmut K. Seitz and Joel B. Mason* 1945

High Levels of Dietary Vitamin E Do Not Replace Cellular Glutathione Peroxidase in Protecting Mice from Acute Oxidative Stress. *Wen-Hsing Cheng, Beth A. Valentine and Xin Gen Lei* 1951

Altered Expression and Glucocorticoid-Inducibility of Hepatic CYP3A and CYP2B Enzymes in Male Rats Fed Diets Containing Soy Protein Isolate. *Martin J. Ronis, J. Craig Rowlands, Reza Hakkak and Thomas M. Badger* 1958

Dietary Calcium Is a Major Factor in 1,25-Dihydroxycholecalciferol Suppression of Experimental Autoimmune Encephalomyelitis in Mice. *Margherita T. Cantorna, Jean Humpal-Winter and Hector F. DeLuca* 1966

Pinus pinaster Oil Affects Lipoprotein Metabolism in Apolipoprotein E-Deficient Mice. *G. Asset, E. Baugé, R. L. Wolff, J. C. Fruchart and J. Dallongeville* 1972

Nutrient-Gene Expression

Histidine-Imbalanced Diets Stimulate Hepatic Histidase Gene Expression in Rats. *Nimbe Torres, Lariza Beristain, Hector Bourges and Armando R. Tovar* 1979

Secretion of Phospholipid Transfer Protein by Human Hepatoma Cell Line, Hep G2, Is Enhanced by Sodium Butyrate. *Ziwen Guo, Chaoshen Yuan, Tzuping Wei-Lavery, Yulin Fang, Roy A. Garvin, Hiro I. Nishida and Toshiro Nishida* 1984

Human Nutrition and Metabolism

Nutritional Value of [^{15}N]-Soy Protein Isolate Assessed from Ileal Digestibility and Postprandial Protein Utilization in Humans. *François Mariotti, Sylvain Mahé, Robert Benamouzig, Catherine Luengo, Sophie Daré, Claire Gaudichon and Daniel Tomé* 1992
Plasma L-5-Oxoproline Carbon and Nitrogen Kinetics in Healthy Young Adults. *Cornelia C. Metges, Yong-Ming Yu, Wei Cai, Xiao-Ming Lu, Sue Wong, Alfred M. Ajami and Vernon R. Young* 1998
Research Communication: Fasting Increases Serum Total Cholesterol, LDL Cholesterol and Apolipoprotein B in Healthy, Nonobese Humans. *Lars Sävendahl and Louis E. Underwood* 2005
Research Communication: Oxidative Stress in Humans during Work at Moderate Altitude. *Wei-Hsun Chao, Eldon W. Askew, Donald E. Roberts, Steven M. Wood and James B. Perkins* 2009

Community and International Nutrition

Long-Term Weekly Iron Supplementation Improves and Sustains Nonpregnant Women's Iron Status as Well or Better than Currently Recommended Short-Term Daily Supplementation. *Fernando E. Viteri, Farah Ali and Jennifer Tujague* 2013
Dietary Vitamin A Intakes of Preschool-Age Children in South India. *Usha Ramakrishnan, Reynaldo Martorell, Michael C. Latham and Rajaratnam Abel* 2021
Functional Biochemical and Nutrient Indices in Frail Elderly People Are Partly Affected by Dietary Supplements but Not by Exercise. *Nynke de Jong, Marijke J. M. Chin A Paw, Lisette C.P.G.M. de Groot, Cees de Graaf, Frans J. Kok and Wija A. van Staveren* 2028

Nutrient Metabolism

Dietary Conjugated Linoleic Acids Increase Lean Tissue and Decrease Fat Deposition in Growing Pigs. *Ewa Ostrowska, Morley Muralitharan, Reg F. Cross, Dale E. Bauman and Frank R. Dunshea* 2037
Dietary Potassium Bicarbonate and Potassium Citrate Have a Greater Inhibitory Effect than Does Potassium Chloride on Magnesium Absorption in Wethers. *J. Th. Schonewille, A. C. Beynen, A. Th. Van't Klooster, H. Wouterse and L. Ram* 2043
Dietary Marine Algae (*Schizochytrium sp.*) Increases Concentrations of Conjugated Linoleic, Docosahexaenoic and Transvaccenic Acids in Milk of Dairy Cows. *Sharon T. Franklin, Kimberly R. Martin, Robert J. Baer, David J. Schingoethe and Arnold R. Hippen* 2048

Nutrient Requirements

Chronic Feeding of a Low Boron Diet Adversely Affects Reproduction and Development in *Xenopus laevis*. *Douglas J. Fort, Enos L. Stover, Philip L. Strong, F. Jay Murray and Carl L. Keen* 2055
Protein Malnutrition Affects the Growth Trajectories of the Craniofacial Skeleton in Rats. *Jeffrey P. Miller and Rebecca Z. German* 2061
Research Communication: Folic Acid Supplementation of Pregnant Mice Suppresses Heat-Induced Neural Tube Defects in the Offspring. *Jae-Ho Shin and Kohei Shiota* 2070

Nutrient Interactions and Toxicity

Dietary Docosahexaenoic Acid-Enriched Phospholipids Normalize Urinary Melatonin Excretion in Adult (n-3) Polyunsaturated Fatty Acid-Deficient Rats. *Monia Zaouali-Ajina, Abdallah Gharib, Georges Durand, Noureddine Gazzah, Bruno Claustrat, Claude Gharib and Nicole Sarda* 2074
Psyllium Shifts the Fermentation Site of High-Amylose Cornstarch toward the Distal Colon and Increases Fecal Butyrate Concentration in Rats. *Tatsuya Morita, Seiichi Kasaoka, Koji Hase and Shuhachi Kiriyama* 2081

Nutritional Neurosciences

Docosahexaenoic and Arachidonic Acid Prevent a Decrease in Dopaminergic and Serotoninergic Neurotransmitters in Frontal Cortex Caused by a Linoleic and α-Linolenic Acid Deficient Diet in Formula-fed Piglets. *Sylvia de la Presa Owens and Sheila M. Innis* 2088

Issues and Opinions in Nutrition

The Role of Dietary Fat in Child Nutrition and Development: Summary of an ASNS Workshop. *John A. Milner and Richard G. Allison* 2094

LETTERS TO THE EDITOR

CLA and PPARγ Activation. *Silvia Y. Moya-Camarena and Martha A. Belury* 2106
Response to Drs. Moya-Camarena and Belury. *Ann Brody* 2106

Announcements 2107

No. 12 DECEMBER 1999

ARTICLES

Recent Advances in Nutritional Sciences

The Cholesterol-Lowering Action of Plant Stanol Esters. *Tu T. Nguyen* 2109

Biochemical and Molecular Action of Nutrients

Blood Concentration of Coenzyme Q_{10} Increases in Rats When Esterified Forms Are Administered. *Mikael Turunen, Eeva-Liisa Appelkvist, Pavel Sindelar and Gustav Dallner* 2113
Consumption of Casein Instead of Soybean Protein Produces a Transient Rise in the Concentration of Sphingomyelin in VLDL in Rats. *Math J. H. Geelen, Danny van Hoorn and Anton C. Beynen* 2119
Dietary Fat during Pregnancy and Lactation Increases Milk Fat and Insulin-Like Growth Factor I Concentrations and Improves Neonatal Growth Rates in Swine. *Lori A. Averette, Jack Odle, Marcia H. Monaco and Sharon M. Donovan* . . . 2123
Supplementation of Jurkat T Cells with Green Tea Extract Decreases Oxidative Damage Due to Iron Treatment. *Daniela Erba, Patrizia Riso, Anna Colombo and Giulio Testolin* 2130
Conjugated Linoleic Acid-Enriched Butter Fat Alters Mammary Gland Morphogenesis and Reduces Cancer Risk in Rats. *Clement Ip, Sebastiano Banni, Elisabetta Angioni, Gianfranca Carta, John McGinley, Henry J. Thompson, David Barbano and Dale Bauman* 2135
Research Communication: Activation of Chick Tendon Lysyl Oxidase in Response to Dietary Copper. *Robert B. Rucker, Brian R. Rucker, Alyson E. Mitchell, Chang Tai Cui, Michael Clegg, Taru Kosonen, Janet Y. Uriu-Adams, Eskouhie H. Tchaparian, Michelle Fishman and Carl L. Keen* 2143

Nutrient-Gene Expression

Copper Deficiency Alters Rat Dopamine β-Monooxygenase mRNA and Activity. *Joseph R. Prohaska and Bruce Brokate* . . 2147
Insulin Receptor at the Mouse Hepatocyte Nucleus after a Glucose Meal Induces Dephosphorylation of a 30-kDa Transcription Factor and a Concomitant Increase in Malic Enzyme Gene Expression. *Nana Gletsu, W. Dixon and M. T. Clandinin* 2154

Human Nutrition and Metabolism

β-Carotene Does Not Change Markers of Enzymatic and Nonenzymatic Antioxidant Activity in Human Blood. *Jacqueline J. M. Castenmiller, Søren T. Lauridsen, Lars O. Dragsted, Karin H. van het Hof, Jozef P. H. Linssen and Clive E. West* 2162
Some Dietary Fibers Reduce the Absorption of Carotenoids in Women. *Judith Riedl, Jakob Linseisen, Jürgen Hoffmann and Günther Wolfram* 2170
Extra-Virgin Olive Oil Increases the Resistance of LDL to Oxidation More than Refined Olive Oil in Free-Living Men with Peripheral Vascular Disease. *M. Carmen Ramirez-Tortosa, Gloria Urbano, María López-Jurado, Teresa Nestares, María C. Gomez, Amalia Mir, Eduardo Ros, José Mataix and Angel Gil* 2177
Postprandial Triacylglycerols from Dietary Virgin Olive Oil Are Selectively Cleared in Humans. *Rocío Abia, Javier S. Perona, Yolanda M. Pacheco, Emilio Montero, Francisco J. G. Muriana and Valentina Ruiz-Gutiérrez* 2184

Community and International Nutrition

Simultaneous Vitamin A Administration at Routine Immunization Contact Enhances Antibody Response to Diphtheria Vaccine in Infants Younger than Six Months. M. M. *Rahman, D. Mahalanabis, S. Hossain, M. A. Wahed, J. O. Alvarez, G. R. Siber, Claudette Thompson, M. Santosham and G. J. Fuchs* 2192
Early Childhood Nutrition, Education and Fertility Milestones in Guatemala. *U. Ramakrishnan, H. Barnhart, D. G. Schroeder, A. D. Stein and R. Martorell* 2196
Research Communication: Integration of Vitamin A Supplementation with the Expanded Program on Immunization Does Not Affect Seroconversion to Oral Poliovirus Vaccine in Infants. *Richard D. Semba, Muhilal, Nasrin E. G. Mohgaddam, Zakiuddin Munasir, Arwin Akib, Dewi Permaesih, Muherdiyantiningsih and Albert Osterhaus* 2203

Nutrient Metabolism

Adipose Tissue Triacylglycerols of Rats Are Modulated Differently by Dietary Isomeric Octadecenoic Acids from Coriander Oil and High Oleic Sunflower Oil. *Nikolaus Weber, Stefanie Schönwiese, Erika Klein and Kumar D. Mukherjee* . . . 2206
Intestinal Microorganisms Do Not Supply Associated Gnotobiotic Rats with Conjugated Linoleic Acid. *Beate Kamlage, Ludger Hartmann, Bärbel Gruhl and Michael Blaut* 2212
Net Hepatic Gluconeogenic Amino Acid Uptake in Response to Peripheral versus Portal Amino Acid Infusion in Conscious Dogs. *Mary Courtney Moore, Po-Shiuan Hsieh, Paul J. Flakoll, Doss W. Neal and Alan D. Cherrington* 2218
High Dietary Protein and Taurine Increase Cysteine Desulfhydration in Kittens. *Taesun Park, Quinton R. Rogers and James G. Morris* 2225
Prolonged Intake of Fructo-Oligosaccharides Induces a Short-Term Elevation of Lactic Acid-Producing Bacteria and a Persistent Increase in Cecal Butyrate in Rats. *Gwenaëlle Le Blay, Catherine Michel, Hervé M Blottière and Christine Cherbut* 2231

Nutrient Requirements

Research Communication: Boron Stimulates Yeast (*Saccharomyces cerevisiae*) Growth. *A. Bennett, R. I. Rowe, N. Soch and C. D. Eckhert* 2236

Nutrient Interactions and Toxicity

Single Versus Multiple Deficiencies of Methionine, Zinc, Riboflavin, Vitamin B-6 and Choline Elicit Surprising Growth Responses in Young Chicks. *David H. Baker, Hardy M. Edwards, III, Colleen S. Strunk, Jason L. Emmert, Christopher M. Peter, Ioannis Mavromichalis and Theresa M. Parr* 2239
Vitamin A Antagonizes the Action of Vitamin D in Rats. *Cynthia M. Rohde, Margaret Manatt, Margaret Clagett-Dame and Hector F. DeLuca* 2246
Bifidobacterium animalis Protects Intestine from Damage Induced by Zinc Deficiency in Rats. *Elena Mengheri, Fabio Nobili, Francesco Vignolini, Michela Pesenti, Giovanni Brandi and Bruno Biavati* 2251

Nutritional Epidemiology

Plasma Carotenoids Are Biomarkers of Long-Term High Vegetable Intake in Women with Breast Cancer. *Archana Jaiswal McEligot, Cheryl L. Rock, Shirley W. Flatt, Vicky Newman, Susan Faerber and John P. Pierce* 2258

Nutrition and Aging

Growth Hormone Improves Body Mass Recovery with Refeeding after Chronic Undernutrition-Induced Muscle Atrophy in Aging Male Rats. *Bill T. Ameredes, Jon F. Watchko, Monica J. Daood, J. Fernando Rosas, Michael P. Donahoe and Robert M. Rogers* 2264

Nutritional Methodology—Review

Review of Animal Models in Carotenoid Research. *Christine M. Lee, Amy C. Boileau, Thomas W. M. Boileau, Alexa W. Williams, Kelly S. Swanson, Kasey A. Heintz and John W. Erdman, Jr.* 2271

Issues and Opinions in Nutrition

Cupric Oxide Should Not Be Used As a Copper Supplement for Either Animals or Humans. *David H. Baker* 2278
AHA Science Advisory: Monounsaturated Fatty Acids and Risk of Cardiovascular Disease. *Penny M. Kris-Etherton* 2280
